

# I LOVE CATS

BY CATHERINE MATTHIAS

I like mice. I think they're nice.

But I love cats.

I love cows. We could be pals.

But I love cats.

I like dogs, both short and tall.....

.....and puppies and bunnies .....and bears who eat  
honey.

But I love cats.

I like pigs, both small and big, and ducks and  
geese and goats and sheep.

I like them all a great big heap.

But I love cats.

I like birds that sing..... and bats with  
wings....and turtles and snails with shells on their  
backs.

But I love cats.

I like toads and frogs and polliwogs.....and beetles  
and spiders and crickets and such.

I like them all very much.

**BUT I LOVE CATS!**
