

I Love Vacation!

My family is going on vacation! We will stay at the seashore for one week. We will take a train from the station to the seashore. We are waiting for the train at the train station. Here comes the train!

We get on the train. Then it pulls out of the station. I can feel the motion of the train. It rocks back and forth. This motion makes me sleepy. I take a nap before we get to our vacation house.

We are here! I can't wait for our vacation to begin. I run to our vacation house. Gabe is too little to run. He just watches the motion of the waves and the action of the seagulls.

“You don't want to get a sunburn,” Mom tells me. “Put on this suntan lotion for protection.”

We all put on some suntan lotion. Then we go to the beach. I love vacation!
