

Painting Pictures

I like painting pictures. First, I mix the paint. I can make the paint mixture thick or thin.

A thin mixture has a smooth texture when I paint. A thick mixture has a bumpy texture on the paper.

I like to paint silly creatures. I want this creature to be bumpy. I use a thick paint mixture. This thick paint has a bumpy texture. Bumpy creature pictures are the best!

I also like to paint picture of nature. I will paint a pasture. A pasture is a big place with grass and farm animals. I will use a think paint mixture. This paint has a smooth texture.

Mom likes my pictures. She hangs my pasture picture in the kitchen. Dad likes my pictures too. He hangs my bumpy creature picture in the den. I love painting pictures!
