

Pasture Creatures

Sam and Al planned to walk in the farm pasture. They wanted to capture bugs that lived in the pasture. They got a net and a jar. Then they went to the pasture to find the creatures.

“Did you puncture holes in the lid of the jar?” Sam asked Al.

“Yes,” said Al. “I also put in a mixture of grass and leaves. The creature that we capture will have a nice home.”

Al pointed. “I see a creature. Capture it, Sam!”

Sam captured the creature in his net. Then he and Al placed the creature in the jar.

“The creature is a grasshopper,” said Sam.

Sam and Al captured more creatures in the pasture. They put the creature in the jar. They watched the creatures in the jar for a while. Then they let the creatures go back into the pasture.

“So long, creatures,” waved Sam and Al.
