

Sisters and Brothers

I have a younger brother and an older sister. I am taller than my brother but shorter than my sister. Maybe one day I will grow taller than my sister.

My younger brother can run faster than me, but not faster than our big sister. Our big sister can run faster and farther than both of us. I think it is because her legs are longer.

I am a better jumper than my sister. My sister used to be a better jumper. Then I started to practice a lot. Now I am a better jumper. My brother cannot jump rope, but he is a good digger!

My sister is better at running. My brother is better at digging. I am better at jumping. We are all better at different things. I love my brother and sister.
