

Homework Practice

3SDAP1.3

Line Plots

Display each set of data in a line plot.

1.

Blue Jays Seen at Bird Feeder		
Number of Blue Jays	Tally	Number of Responses
4		1
5	///	3
6		2
8	///	3

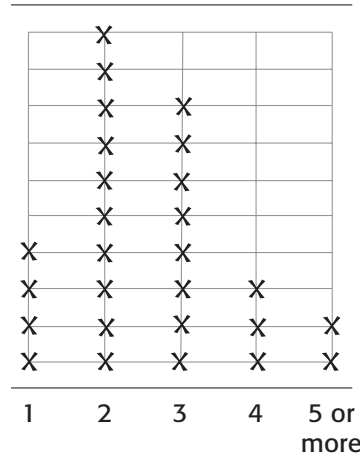

For Exercises 2-4, refer to the line plots that shows the number of states students have visited.

2. How many states have most students visited?

3. How many students have visited three states?

4. How many students participated in this survey?

How Many States Have You Visited?

(Lesson 11-1)

5. Take the line plot used for Exercises 2-4 and display it in a horizontal bar graph.

6. Why might we use a vertical bar graph rather than a horizontal bar graph to display information?
